## GLOSSARY

### MEDICAL

Designates product available to registered patients in the MA MMJ program.

### ADULT USE

Designates product available to Adult Use Recreational patrons.

### SATIVA

Patients report that sativa varieties offer an uplifting effect, help to improve focus, and give a boost to mental acuity while providing the symptom relief they need.

### HYBRID

As an amalgam of sativa and indica characteristics, patients report hybrid varieties provide a balanced mix of effects and may be best utilized for symptom management by those who seek the middle ground between sedation and invigoration.

### CBD

CBD is a non-psychoactive cannabinoid found in cannabis. If a clear mind is needed, CBD varieties may be a good option.

### INDICA

Patients report that indica varieties work best for rest and relaxation. For those needing to unwind while managing symptoms, consider using one of these products.

### INDICA LEANING HYBRID

### SATIVA LEANING HYBRID

### CBD:THC RATIO

Icon reflects the ratio of CBD to THC.

### THC-A

THC-A is a non-psychoactive cannabinoid found in raw, live cannabis.
